©2005

Explore daily life in households around the world from a child's perspective. In each episode, spend a day with two families, one urban and one rural, as they share information about their regional foods, clothing, housing styles, religion, culture and education. Children develop a new understanding for life in other countries. The intimate, but not intrusive, footage presents interesting facts about each country.

Free online Teacher's Guide includes the video script, copy-ready maps, discussion and activity guides, recipes, glossaries and more.

"This excellent series will give children an intriguing taste of another culture and allow them to compare and contrast it with their own." - *School Library Journal*
